
Click on preview -> index.php

Posted by Carino - 2007/06/12 23:34

Hi,

my problem is, that I can't send my Job offer (preview). If I click an the preview button, I'll go to my startsite (index.php).

I get no error and I tried with and without Editor.

Are there any ideas?

Joomla: 1.0.12

Component: 1.1.2.2

Part of Sourcecode:

```
<form action="index.php" method="POST" name="adminForm" enctype="multipart/form-data">
  <table cellpadding="5" cellspacing="0" border="0" width="100%" class="adminform">
    <tr>
      <td class="contentheading" width="100%" colspan="2">Jobinformationen eingeben</td>
    </tr>
    <tr>
      <td width="20%" align="right">Name</td>
```

Thanx a lot,

Carino
