
Number of characters in entry

Posted by jacobsonjm - 2009/06/18 00:19

Is there anyway to limit the number of characters a user is allowed to type within the Entry field?

=====

HELLO??? Is there anybody out there?

I am hoping to get this question answered but does not seem to be any developer monitoring this Support forum as I have not received a single reply.

Is there anyway to limit the number of characters a user is allowed to type within the Entry field?

This did not answer my question.

Is there anyway to limit the max length - I only want users to be able to write a max. of 120 characters - is there anyway to do this?
